Get in touch with us to get more information

We are the philanthropic arm of our health system. Our mission is to fund initiatives that benefit special projects to help innovate SGMC and improve our patients experience. We have raised over **\$7 million** in philanthropic funding.

## SGMC Employee Giving,

formerly known as HEART!, includes a group of employees who support the philanthropic efforts of SGMC Foundation. These employees help to ensure that the innovative healthcare they deliver every day will be available to their friends, family and neighbors in their time of need.

## Commit to Innovate

is a campaign to support SGMC's commitment to provide innovative health care services. #iCommit is the giving initiative for SGMC employees to champion the mission of enhancing the services provided to our patients.

## By Committing,

you send a profound message to the community that employees not only work here, but also **truly believe in our mission to serve all people through exemplary health care.** Giving to the employee giving campaign does more than innovate our health system, you transform your patient's and team member's experience.

## Which Fund Do I Support?

Employees choose to commit their donation through payroll deduction specifically to fund the area of greatest need or projects and services at an SGMC campus. If you choose to designate your funds to Main Campus, you can support one of the four health initiatives: cancer, cardiovascular/vascular, hospice, or women & children. Best of all your gift is tax deductible.

Since 1990, employees have been a philanthropic engine for SGMC raising **over \$1.6 million.**

Highlights Include:

**\$70,000**

**Langdale Place** - Raised to help offset the cost of building our assisted living facility

**\$177,000**

**Pearlman Cancer Center** - Raised to help build our comprehensive free-standing cancer center

**\$379,000**

**Healthy Future for South Georgia** – Raised for three initiatives split equally for Pearlman Cancer Center, Dasher Heart Center, and Hospice House

**\$470,000**

**Stories of Healing Campaign** – raised in pledges to benefit the construction of Dasher Heart Center and patient tower
